An example Meat Box might be a pound of Brisket (\$20), Two Chicken Breasts (\$13), a package of Pulled-Pork (\$10), and a package of Premium Bacon (1/2 lb now \$6) - That's \$49.

It is delivered to your door (for free) on the night you choose, you don't have to think about the cooked proteins (everything is cooked, just warm it up), preservative-free, delicious, and supports local small business.

## This can help you plan your week.

Think of it like this: Brisket (and something) Monday, Chicken (and something) Wednesday, Pulled Pork, and Bacon over the weekend. If you don't go through it that week, guess what? It has a two-week refrigerated shelf-life because it is fresh vacuum-packed.

Our Bacon is truly a treat! You'll never go back to store-bought and it is only \$6 per 1/2 lb pkg. It barely shrinks and it is packed with flavor.
